Living In Process® Weekend

Fri 18th to Mon 21st February 2022

Anne Wilson Schaef Ph.D, world-renowned writer, native elder, and teacher, pioneered a new (old) approach to living and healing, called Living In Process®, which she taught throughout the world.

"I believe living in process is necessary for the healing and preservation of the planet and everything on it. We did not start out in this work to heal the planet. We all came into it to heal ourselves and now it is obvious that there is no way to heal the planet unless we first start with healing ourselves. We are after all a part of the planet."

Anne Wilson Schaef

Sadly, Anne passed away at the start of 2020.

Living in Process® work is not therapy, nor is it based on the scientific model out of which therapy comes. It is a **way of living** that is based on holistic science, rather than the limited technological model of western culture. Connected with traditions of native cultures, it is community-based, participatory, safe, respectful, and spiritually-grounded.

The Weekends/One Day Offers

Living in Process® Weekends offer an opportunity to learn about a way of life that focuses on healing and offers a path for spiritual growth. We have an opportunity to live in process and in community while learning to confront our addictive processes and behaviours. Our focus is on holistic healing.

Your Own Pace:

An opportunity to participate in a respectful community environment where work on personal issues proceeds at our own pace.

New Learning and Conceptualising:

An emphasis on 'Living in Process' which focuses on being present to ourselves and others in the moment; owning our own "process"; and working through past and/or present feelings that have been denied, suppressed, or distorted. There will be opportunities to experience deep process work in a safe, supportive environment.

Notice and Name Addictive Processes:

An opportunity to notice addictive behaviours and processes and see how they affect our lives; to support new levels of honesty and recovery within ourselves and with others. The weekend/day will provide options to look at culturally-supported addictive processes such as relationship, romance and sex addiction, workaholism and money issues, as well as ingestive addictions (food, alcohol, drugs). We will see how we can use addictive behaviours to avoid feelings, prevent us from being present to others and ourselves, and block our spirituality.

A Flexible Agenda:

The weekend includes time for relaxation, reflection and sharing in a peaceful setting. For those who wish, there will be an option to call or attend 12-step meetings.

Facilitators

The weekends will be facilitated by people who are part of the Living in Process Community, are doing their own healing work, and have extensive experience in Living in Process®.
